<input type="checkbox"/> Substances that react violently or liberate toxic gas on contact with water	

Public warning in case of major incident

General information about how the public will be warned in the event of a major incident at the facility:

Emergency Shut Down, Fire and/or wide area alarms would be sounded during an emergency. Immediate neighbours will be contacted by telephone or text message

Public actions in case of major incident

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

Members of the public should remain calm, keep away from the Plant and follow instructions from the emergency services

Anyone hearing the off-site alarm (and it is not 9:30 am on a Wednesday - when it is tested), and are within 400 meters of the facility will need to evacuate to one of the designated muster points. The siren automatically calls Fire & Emergency NZ and OnGas staff or the emergency services will be in position to guide you to one of the designated muster points in the unlikely event that this is required.
