Public warning in case of major incident

General information about how the public will be warned in the event of a major incident at the facility:

In the event of a spill, the adjacent properties will be notified to evacuate the areas of the site which are within the identified radius, if the wind is blowing towards the neighbors. New Zealand Comfort Group staff will contact Emergency Services, and until they arrive and take control of the incident, access to the site and adjacent public foot path will be coned off signage and a staff member present to direct the public until the spill has been contained following the specific spill response procedures in the sites Emergency Response Plan.

Public actions in case of major incident

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

Aside for keeping outside of the coned off area, no additional actions or precautionary steps are required. If concerns are experienced by public, New Zealand Comfort Group staff will communicate actions which include leaving the area and seeking fresh air and to seek medical assistance if they suffer from wheezing, shortness of breath, and chest tightness up to 8 hours after exposure.
