**NOTES OF JUSTICE OF THE PEACE G J CLAPP ON SENTENCING**

---

[1] We have quite a complex case before us in relation to Mr Thai's company DT Rental Property Management Services Ltd in relation to an infringement fee of \$3000. It relates to a TradeMe website in the form that three high pressure ring burners in which it failed to make a supply declaration in breach of r 66 Gas (Safety Measurement) Regulations 2010.

[2] This case came before us on 7 February and we adjourned the case to enable Mr Thai to get full disclosure of company records to be provided. Today Mr Thai has given us an affidavit alleging that these records are a true and correct record. However, this infringement is against DT Rental Property Management Services Ltd and not Mr Thai personally.

[3] Mr Thai has told us that the company has now been liquidated and has been for about three years. We have got nothing in front of us to say that we have full understanding that this amount was not able to be paid. We, therefore, fine the company DT Rental Property Management Services the sum of \$3000 and Court costs of \$35.

G J Clapp  
Justice of the Peace
