

# WorkSafe Quarterly Report: Q4 1 April to 30 June

## WorkSafe outlook

WorkSafe’s quarter was defined by COVID-19 and the April/May 2020 lockdown. We transitioned staff out of our offices and into remote work; we maintained our core regulatory activities as an essential service; and contributed to the all-of-government response at all levels.

WorkSafe continues to support the COVID-19 response, and workplaces, as part of our business as usual activities. We know that the nature of work and workplaces has changed, and support is needed to ensure health and safety in this uncertain environment.

Despite COVID-19, WorkSafe achieved a significant amount over the quarter and the year, including across our engagement, education and enforcement lever, and in growing our capacity and capability. We finalised our 2020/21 work programme and budget which will support our work towards becoming a modern, insights-driven regulator that makes a measurable difference. We progressed our Budget 2019 (B19) contingency funding draw down which will support WorkSafe to deliver work-related health initiatives and projects.

## Delivery

### Performance measures

**13/15** Ministerial expectations on track

**12/15** SPE measures on track

- 1** not available
- 2** impacted by COVID

*We will report in full on our delivery over the year, and our performance measures, in our Annual Report.*

**5/9** SOI measures on track

- 1** measure results not comparable to target
- 3** no longer fit for purpose or not available

## Highlights (issues, risks and actions) this quarter

A key feature of this quarter was our **response to the April/May 2020 lockdown**; we made a significant contribution to the all-of-government COVID-19 response.

We **produced a wide array of guidance, including general and sector-specific COVID-19 guidance, and subject-specific guidance** to support healthy and safe work.

We continued to deliver a range of initiatives and activities, including **making progress in our Mentally Healthy Work programme**.

We **progressed our planning and budgeting process to produce Taura Here Waka – Our One Plan to further our modernisation journey**.

## Focus next quarter

We will **work with sector leadership groups to continue to support their response to COVID-19, and support their work to manage the impacts** in a healthy and safe way.

We will continue to build the capacity and capability to support our harm prevention programmes with a focus on **building a team to deliver on carcinogens and airborne risk**.

We will **socialise Taura Here Waka across the organisation, to engage all staff on our journey to become a modern, insights-driven organisation**, and consulting on our proposed new values.

We will **ensure that WorkSafe is “investment ready” before** requesting ministerial approval to draw-down of **the remaining contingency funding** to support our intelligence and ICT.

## Finance

Working Safer Levy is within the 2% target range of net underspend overall across the organisation. Additional funding was received in June 2020 for COVID-19 and Refrigeration expenditure. An underspend will be transferred to reserves and carried forward to spend next year.

## Vehicle fleet

**54** diesel      **5** hybrid      **0** electric      **158** petrol

Our next round of vehicle purchases will be 15 hybrids, expected on the road in August 2020.

## ICT

We transitioned out of the office and into remote work and work from home during the April/May 2020 lockdown. We also worked towards bringing the ‘*Office 365 programme*’ back on track; this is our ICT migration from MBIE and upgrade. We are continuing work on the programme and work to service support for the draw down of Budget 2019 contingency funding which will support next steps.

## Organisational risk

WorkSafe confirmed our risk profile and work is underway to ensure the right control assessments are in place. Specific regulatory risks have been considered through the recent 2020/21 planning and budget round. Our focus remains on building operational capacity and capability to address regulatory risk and investment has been directed towards managing those risks or is being flagged for future investment.

## People, culture and property

A key feature of Q4 included the arrival of new Board and Executive Leadership Team members. We also now have draft new WorkSafe values for WorkSafe-wide consultation. Both are important steps in our organisational evolution. In Q4, we also developed and implemented new protocols for our 19 properties to comply with government guidance at each Alert Level; working through the complexities arising out of the various of leases.

# Ministerial Expectations (1 of 4)

Red Not tracking to deliver on target    
 Amber Off track to deliver on target    
 Green On track to deliver or exceed target

Regulatory effectiveness	Deliverables 19/20	Q3	Q4	Highlights (issues, risks and actions)	Focus next quarter
--------------------------	--------------------	----	----	--	--------------------

<b>1. Work with other regulators</b> to drive best health and safety regulatory practice	<ul style="list-style-type: none"> <li>Strengthen <b>purposeful and active relationships with strategic partners and stakeholders, including other regulators</b>, MBIE, ACC, health and transport and our social partners (NZCTU and business)</li> <li><b>Execute two shared initiatives</b> arising from the CE's forums</li> </ul>	●	●	<ul style="list-style-type: none"> <li>Worked as part of the all-of-government COVID-19 response team providing leaders and technical experts, and customer service support for a range of response activities.</li> <li>Worked on the Chair's forum decision to scope work to support the development of regulatory practice capability for regulatory boards and monitoring practice.</li> <li>This expectation is <b>red</b> due to the challenges driving the establishment of a strategic work programme through the Chief Executive's forum; this was not achieved this performance year. It is likely to remain a challenge as the all-of-government COVID-19 response continues and deflects resources.</li> </ul>	<ul style="list-style-type: none"> <li>There are a number of significant, planned engagements and initiatives in Q1. They include:                             <ul style="list-style-type: none"> <li>continuing the joint agency energy safety project – <i>Product Safety Forum</i> - with MBIE, the New Zealand Customs Service and Commerce Commission.</li> <li>working with New Zealand Transport Authority (NZTA) and the New Zealand Police (Police) Commercial Vehicle Safety Team exploring ways in which we can collaborate more effectively together where we have joint or overlapping regulatory functions.</li> </ul> </li> </ul>
--	--	---	---	--	--

<b>2. Supporting health and safety regulatory reform</b> including implementation	<ul style="list-style-type: none"> <li><b>Support MBIE with the ongoing development of the Health and Safety Regulatory Framework</b> (including Plant and Structures Regulation and Mining Regulations)</li> </ul>	●	●	<ul style="list-style-type: none"> <li>Supported MBIE to complete a cabinet paper and discussion document for consultation on proposed updates to schedules of standards cited in <i>Electricity (Safety) Regulations 2010</i> and <i>Gas (Safety and Measurement) Regulations 2010</i>.</li> <li>Provided technical advice to MBIE for the forthcoming amendments to the <i>Health and Safety at Work (Hazardous Substance) Regulations 2017</i>.</li> </ul>	<ul style="list-style-type: none"> <li>Continuing to support MBIE as it works on various pieces of work to support the regulatory reform package; in preparation for receiving direction and re-prioritising the programme post-COVID-19.</li> </ul>
---	---	---	---	---	--

<b>3. Fulfil Energy Safety regulator role and enhance the energy safety regulatory framework</b>	<ul style="list-style-type: none"> <li>Promote and contribute to the safe supply and use of electricity and gas</li> </ul>	●	●	<ul style="list-style-type: none"> <li>Completed the investigation into the 19 July 2019 Christchurch gas explosion.</li> <li>Participated in the Trans-Tasman electrical and gas regulators meetings; Electrical Regulatory Authorities Council; and Gas Technical Regulatory Committee.</li> <li>Provided input into a number of Standards New Zealand (Standards NZ) projects including to facilitate the safe supply and use of hydrogen.</li> </ul>	<ul style="list-style-type: none"> <li>Engaging with, and input into, Standards NZ work, and working across WorkSafe to map out the regulatory responsibilities with regard to the storage, supply and use of hydrogen.</li> <li>Supporting the development of rules for the integration of the 'TT' electrical earthing arrangement into the electrical infrastructure.</li> </ul>
--	--	---	---	--	---

<b>4. Build on new enforcement and legal tools</b> in the Health and Safety at Work Act 2015	<ul style="list-style-type: none"> <li>Use and build on our range of enforcement and legal tools including enabling duty-holders to self-review their health and safety practice and approving Enforceable Undertakings</li> </ul>	●	●	<ul style="list-style-type: none"> <li>Continued developing an approach to the proactive prosecutions of businesses before serious harm or fatality occurs; allowing Inspectors to initiate a prosecution where duty holders ignore other interventions put in place to address health and safety issues.</li> </ul>	<ul style="list-style-type: none"> <li>Continuing the suite of activities delivered by the Inspectorate and other teams, focused on harm prevention and the use of our enforcement tools. With a return to work, activities like Duty Holder Reviews can be re-started.</li> </ul>

## New funding initiatives - Application of Budget 19 appropriated funding for 2019/2020

Outcome	B19 \$m Allocation 2019/20	WKS \$m Actual 2019/20	B19 \$m Actual 2019/20	The commentary below details how WorkSafe has spent Budget 2019 funding for a range of cost pressures and new initiatives.
<b>People Strategy</b>	0.46	0.19	0.19	Implementation of the People Strategy is being progressed across multiple workstreams, with some planned work (refer B19 PIP key milestones), and the incurring of costs, will be undertaken in 2020/21.
<b>Learning and development programme</b>	0.74	0.26	0.26	Our Learning and Development Programme is delayed and underspent. Our planned capability framework development and training delivery has been delayed to 2020/21. In Q4, we concluded the negotiations and planning for the executive leader development programme, and endorsed the Operations competency framework.
<b>Remuneration increase for all staff</b>	1.25	1.67	1.25	We provided a remuneration increase for staff (of 2.8% on average) from 1 July 2019, along with performance based incentives for inspectors. The total cost was offset by surplus 'remuneration increase for the Inspectorate'.
<b>Agreed remuneration increase for the inspectorate</b>	0.4	0.26	0.26	This funding was applied to remunerations increases for the Inspectorate and also offset the total cost of the all staff remuneration increase referenced above.
<b>Retention initiatives</b>	0.2	0.65	0.2	The retention initiative costs pressure funding was applied to Staff Health Insurances (Wellbeing). Baseline funding was applied to meet the total cost.
<b>Inspectorate</b>	0.59	1.51	0.59	Funding was applied to develop operational capability aligned with business need - including Hazardous Substances Inspectors, a Major Incident Coordinator and a new mentally-healthy work (MHW) team lead who begun work in Q4 and will support our recruitment for additional team members and delivery of our MHW programme in 2020/21.
<b>Modernisation office</b>	2.24	1.98	1.98	Our Modernisation Office is in place and delivering enterprise Target Operating Model deliverables and supporting B19 Programme development. Detailed updates can be found under Ministerial expectations 13, 14 and 15 on page 5.
<b>Increased capacity in research and intelligence</b>	0.21	0.1	0.1	We appointed a new Data Analyst (December 2019) and Data Scientist (February 2020) to support increase in capacity, and have purchased new high technology laptops that will support our Advance Analytics and Artificial Intelligence work programme under the Regulatory Intelligence Strategy.
<b>Increased capacity in 'better regulation' to develop educational materials</b>	0.88	0.19	0.19	Temporary resources were put in place until permanent roles were advertised (in June 2020). Permanent appointments are anticipated shortly. This cost has not been effectively captured in our financial reporting system, and other funding spent was reprioritised to support Operations and Better Regulation projects.
<b>Legal</b>	0.14	0.09	0.09	A senior solicitor was appointed in December 2019.
<b>Increased ICT operational expenditure</b>	1.25	1.77	1.25	Funding was spent, aligned to our ICT strategy, on ICT operational costs and the progressive shift of ICT services from MBIE to WorkSafe management.
<b>Inflation adjustment</b>	0.5		0.5	Used for inflationary driven costs e.g. lease costs.
<b>Implementation of HRIS and Payroll</b>	0.15	0.13	0.13	Used to part fund the moving of payroll from MBIE to WorkSafe management.
<b>Baseline deficit</b>	0.5		0.5	Used to cover historical unfunded cost pressures.
<b>Unfunded depreciation</b>	2.17	0.11	2.17	Used to provide the appropriate level of depreciation funding to cover the capital investment programme.
<b>Total</b>	11.68	8.91	9.66	

## Statement of Performance Expectations – Activity measures (1 of 3)

Harm prevention		Target 19/20	Actual	Commentary
1. Percentage of people who say our guidance is useful (this measure provides an indication of how we help all parts of the system understand what good health and safety practice looks like) (Annual)		Hold or increase (≥ 97%)	98%	● WorkSafe reports <b>annually</b> on guidance that was 'very useful' and 'somewhat useful'.
2. Percentage of assessments that include interaction with a worker or representative where available (Quarterly - YTD)		≥ 80%	79.3%	● Our result for the year shows our commitment to worker engagement, participation and representation. The General Inspectorate were exceeding the target for this measure prior to the April/May 2020 lockdown. The year-end result reflects the impact of COVID-19. During lockdown, inspectors completed remote assessments via phone making access to workers and their representatives more challenging, yet they came close to achieving their target.
3. Update and implement Healthy Work Plan and Harm Reduction Action Plan (Quarterly - YTD)	<p>Update Healthy Work Plan →      Update Harm Reduction Action Plan →</p> <p>Implement Healthy Work Plan ✓      Implement Harm Reduction Action plan -</p>	Achieve	Achieved	● We have updated both plans. The <i>Harm Reduction Action Plan</i> does not contain initiatives for implementation. It is a strategic document developed with the Accident Compensation Corporation (ACC).  We are planning to deliver three sub-plans under the Healthy Work Action Plan in 2020/21, subject to funding and the impact of COVID-19.
4. Percentage of assessments that include a focus on work-related health risks (Quarterly - YTD)		≥ 50%	69.1%	● We have exceeded this target, which is consistent with our increased focus on harm prevention and work-related health. It will remain a focus for the new performance year.

## Statement of Performance Expectations – Activity measures (2 of 3)

Regulatory effectiveness		Target 19/20	Actual	Commentary																														
5. Percentage of prosecutions that are successful (Quarterly - YTD)		≥ 80%	88%	<p>● To year end, there have been:</p> <ul style="list-style-type: none"> <li>• 67 prosecutions initiated</li> <li>• 77 disposed</li> <li>• 61 convicted</li> <li>• 9 withdrawn</li> <li>• 7 discontinued due to enforceable undertaking.</li> </ul>																														
6. Percentage of [formal] investigations where a final decision is made and communicated to victims and PCBUs within 12 months of commencement (Quarterly - YTD)		100%	95%	<p>● 109 of 115 decisions were communicated within 12 months, with two missing the timeframe by three days or less, and one being informally (but not formally) communicated within the timeframe.</p> <p>One decision was a result of delays with the Coroner's office, and reasons for the others currently being investigated.</p>																														
7. Percentage of energy safety investigations (notifiable/non-notifiable incidents and unsafe situations) involving gas and electricity that are completed within 60 days (Quarterly - YTD)		≥ 80%	87%	<p>● To year end, 735 of 845 investigations have been completed within 60 working days.</p>																														
8. Percentage of safety cases under review according to schedule (Quarterly)	<table border="1"> <thead> <tr> <th colspan="5">Safety case review schedule</th> </tr> <tr> <th>Step in cycle</th> <th>Dec 19</th> <th>Mar 20</th> <th>Jun 20</th> <th>Oct 20</th> </tr> </thead> <tbody> <tr> <td>Not yet begun</td> <td>10</td> <td>1</td> <td>0</td> <td>0</td> </tr> <tr> <td>In progress</td> <td>5</td> <td>6</td> <td>1</td> <td>0</td> </tr> <tr> <td>Further info required</td> <td>12</td> <td>1</td> <td>6</td> <td>0</td> </tr> <tr> <td>Completed</td> <td>30</td> <td>49</td> <td>56</td> <td>57</td> </tr> </tbody> </table>	Safety case review schedule					Step in cycle	Dec 19	Mar 20	Jun 20	Oct 20	Not yet begun	10	1	0	0	In progress	5	6	1	0	Further info required	12	1	6	0	Completed	30	49	56	57	100%	100%	<p>● We have met our end of year target with 100% of new Major Hazard Facility safety cases received under active review in 2019/20.</p> <p>Of the 57 new safety cases received, 56 have been completed and one has been referred back to the operation for further information.</p>
Safety case review schedule																																		
Step in cycle	Dec 19	Mar 20	Jun 20	Oct 20																														
Not yet begun	10	1	0	0																														
In progress	5	6	1	0																														
Further info required	12	1	6	0																														
Completed	30	49	56	57																														

## Statement of Performance Expectations – Activity measures (3 of 3)

System leadership		Target 19/20	Actual	Commentary
9. The number and range of sectors supported by tripartite sector leadership groups (Quarterly)		5 (increase by at least 2 from 18/19)	6	● A <b>tripartite group</b> comprises government, business and worker representatives. WorkSafe has supported the establishment of three <b>cross-cutting tripartite groups</b> this year; the Partners Council with a focus on working with Iwi and Māori, the Pacific Peoples Responsiveness Advisory Group and the Worker Engagement, Participation and Representation (WEPR) Community of Practice. These <b>tripartite groups</b> extend wider than individual sectors and all come with significant potential for supporting health and safety in their populations or areas of focus.
Percentage of people we directly engage with who agreed WorkSafe is: (Annual)		Target 19/20	Actual 19/20	
10. Educative		Increase (> 70%)	66%	● We have not met our target for being "Educative" this performance year with the result falling just outside the margin of error.
11. Fair		Increase (> 91%)	91%	● Due to timing, the result does not include the work we undertook to support the all-of-government COVID-19 response.
12. Proportionate		Increase (> 68%)	71%	●
13. Performing effectively		Increase (> 70%)	72%	● All other results have been achieved, with WorkSafe meeting or exceeding the target.
Organisational excellence		Target 19/20	Actual	Commentary
14. Staff engagement as measured in the 'We Say' survey results (Annual)		≥ 61%	N/A	● WorkSafe agreed to delay the 'We Say' survey to Q2 2020/21 to gather these results in response to having four new ELT members, allowing time for the new executive direction to be set, and sufficient time post our initial focus on our response to COVID-19. We have initiatives underway to improve our staff engagement which were continued in Q4.
15. Progress toward achieving strategic goal of becoming a leader in New Zealand health and safety practice (Annual)		Achieve 'Performing' level	Performing	● WorkSafe's latest online survey results (November 2019) show that the "Performing" level has been achieved. We continued to strive to maintain this level for the remainder of the performance year, with the result to be updated when we next run our survey, currently planned for September 2020.

## Internal Organisational Strategic Risks (1/2)

Strategic alignment	Critical risk category and description	Mitigations in place and under development
Right mix of services	<p><u>Risk of</u> loss of support from authorising environment <u>due to</u> lack of/or unclear strategic direction, governance, execution of strategy, operational and/or regulatory failure, poor stakeholder management and lack of staff capacity to deliver <u>resulting in</u> loss of confidence in WorkSafe, inability to influence harm prevention targets, Ministerial and Parliamentary scrutiny, loss of mandate and adverse media and negative reputational impact.</p>	<ul style="list-style-type: none"> <li>- Strategic deep dive sessions are planned and underway for some key areas to ensure clarity and understanding of strategic direction for implementation.</li> <li>- Reporting and monitoring against the Sol 2018-2022, and SPE is embedded and operating effectively. This informs our planning, how we are tracking and any additional focus required to improve performance.</li> <li>- Investment prioritisation of “Regulatory Failure” initiatives FY20/21: Tranches 1 and 2 are progressing well to implement changes for prioritised actions agreed by Ministers.</li> <li>- Implementation of Stakeholder Engagement Policy &amp; Management Approach: Monitoring is in place and a pulse check conducted to inform activities and complete framework development in alignment with our operating model.</li> <li>- External work related advisory groups including operational reporting in place with any issues elevated to Chair of the Board.</li> <li>- Feedback to date indicates a level of satisfaction with WorkSafe’s position that will support a reduction in the likelihood of this risk. This will be presented and considered by ELT as part of the challenge session, before being submitted to ARFC in November and Board in December.</li> </ul>
Future-proof our organisation	<p><u>Risk of</u> inability to prioritise appropriately <u>due to</u> lack of/or unclear methodology, resourcing issues, poor implementation of decisions and operating in silo’s <u>resulting in</u> strategic objectives &amp; initiatives not being delivered, loss of confidence in WorkSafe, Ministerial and Parliamentary scrutiny, loss of political capital, adverse media and negative reputational impact.</p>	<ul style="list-style-type: none"> <li>- Clear accountabilities and leadership model at executive level has been refreshed including executive governance. Integrated delivery plan with shared accountability is in its final stages.</li> <li>- The operating model is being developed to set out a clear and practical pathway to becoming a modern intelligence-led regulator, including alignment with the integrated delivery plan and planning activities for 20/21.</li> <li>- Monitoring and reporting of prioritised initiatives are in place with further refinements to be incorporated.</li> <li>- Development of an Intervention Logic Framework, trialling and re-casting traditional priority sectors is progressing well with an underpinning model developed.</li> <li>- Enhancements to the planning process for 20/21 were rolled out. An organisational wide lens has been applied. Review and challenge took place by the Executive Leadership Team to ensure a consistent process was applied and funding allocation is being considered in relation to the right initiatives with alignment to the integrated plan.</li> <li>- Developing best practice approaches for designing and delivering our services for our clients and in a consistent way within the organisation. This means strategically aligning our existing processes and systems and effectively designing and delivering new services to drive improvement.</li> <li>- Work to improve the controls environment has progressed to a point where consideration to reducing the likelihood and consequence of this risk can be considered. This will be presented and considered by ELT as part of the challenge session, before being submitted to Audit, Risk and Finance Committee in November and Board in December. There are currently no major concerns that the exposure is not being managed adequately</li> </ul>

## Internal Organisational Strategic Risks (2/2)

<p><b>Enhance our technology, data and infrastructure</b></p>	<p>Risk of processes and ICT systems are not fit for purpose <u>due to</u> resourcing capability &amp; capacity issues, lack of customer centric lens, third party failure, inability to respond to events and lack of clear business requirements to inform product selection <u>resulting in</u> privacy breach, non compliance with obligations, inability and/or delays to undertake core responsibilities, initiatives not being delivered and adverse media and negative reputational impact.</p>	<ul style="list-style-type: none"> <li>- Alignment of procurement to architecture roadmap and principles, and Technology Strategy is being embedded across enterprise.</li> <li>- Certification and accreditation process in place and implemented to embed non functional requirements, mapping to agreed standards, controls in operation and what additional controls are required to be implemented.</li> <li>- Ongoing investment profile for continuity of existing and new services is in place.</li> <li>- An independent review is underway in relation to third party suppliers to inform a deeper understanding of risk and control environment gaps at operational and process levels. This will inform future focus for development and improvement of controls to manage the risk.</li> <li>- Business continuity and disaster recovery plan in place and tested. Additional work to understand the effectiveness of this risk at operational and process levels is planned for 20/21.</li> <li>- Recruitment for positions is underway to support the transition of ICT and ongoing support services to WorkSafe to ensure in-house capability and capacity.</li> <li>- A WorkSafe wide integrated systems roadmap is almost complete to support the planned transition of technology services from MBIE.</li> <li>- MBIE Governance and services management is being improved and the master services agreements are being updated to support services being transitioned to other vendor's.</li> <li>- The improvement of the control environment for this risk is a key focus for WorkSafe. It is recognised that a large amount of risk is involved in transitioning services away from MBIE. The output of the independent review will be key in providing a view of the existing control gaps to enable effective mitigation plans to be implemented.</li> <li>- Improvement to the control environment is underway and it is expected that the residual risk position will be improved by Q2 FY20/21. There are currently no major concerns that the exposure is not being managed adequately.</li> </ul>
---	---	---

# People

## Internal health and safety

WorkSafe's lost Time Injury Frequency Rate (LTIFR) remains below target. However we have had three medical treatment injuries this quarter, and one medical treatment injury from January was mis-reported.

LTIFR equals the number of lost time injuries occurring per million hours worked Total Recordable Injury Frequency Rate (TRIFR) equals the number of injuries requiring medical treatment per million hours worked.

FTE (permanent and fixed) by group	Last quarter	This quarter
Operations (High Hazards, Energy and Public Safety; General Inspectorate; Specialist Interventions; Health and Technical Services; Operational Excellence)	392.6	410.1
External Strategy & Engagement	57.4	57.4
Regulatory Effectiveness	61.2	61.0
Business Performance & Modernisation	24.5	23.1
People, Culture & Safety	21.5	24.5
Digital & Information Services	12.9	14.9
Legal	17.6	18.6
Office of the Chief Executive	3.0	3.0
<b>Total</b>	<b>590.60</b>	<b>612.6</b>

19/20 WorkSafe-wide focus areas	Measures	19/20 Result
Inclusiveness & diversity	Everything we do is consistent with WorkSafe's purpose, vision, principles and values	WorkSafe has postponed the "We Say" survey to Q2 2020/21.
	We have clear and effective systems for dealing with intimidating behaviour and workplace bullying, which are applied consistently	
Empowerment	WorkSafe has a culture of empowerment that maximises the performance of staff	
	WorkSafe supports people who come forward with new ideas	
Increase alignment	All teams have objectives that are aligned with those of other teams	
Minimise silos	There is a strong focus on working together as a team rather than operating in silos	

Turnover and FTE		Last quarter	This quarter	Commentary
Organisation turnover (12 month rolling)		10.7%	9.0%	Staff turnover for the 12 months to June 2020 was 9.0%. This has decreased compared to June 2019. It is expected to sit around 10%- 15% in the coming year. Unplanned turnover data includes permanent staff who left due to voluntary reasons, resignation, or retirement. It does not include redundancy, medical retirement, or end of contract.
Organisation FTE (permanent and fixed)		590.6	612.6	WorkSafe has received funding to build upon its existing capacity, with a particular focus on harm prevention. A small increase in our FTE over the course of the year was expected.

## Finance (1 of 4) – WorkSafe financial performance

Financial performance (Year to Date 30 June 2020)			
\$000	YTD Actual	Full Year SPE Budget	YTD Variance
<b>Revenue</b>			
Revenue Crown	107,890	106,282	1,608
Interest revenue	1,065	753	312
Other revenue	16,197	16,724	(526)
<b>Total Revenue</b>	<b>125,152</b>	<b>123,759</b>	<b>1,393</b>
<b>Expenditure</b>			
Personnel and contractors	80,461	76,940	(3,521)
Depreciation	3,393	5,109	1,717
Other expenditure	39,437	45,709	6,272
<b>Total Expenditure</b>	<b>123,291</b>	<b>127,759</b>	<b>4,467</b>
<b>Surplus/(deficit)</b>	<b>1,861</b>	<b>(4,000)</b>	<b>5,861</b>

The net surplus of \$1.9m is a \$5.9m favourable variance against budget. This variance is primarily in tagged funds (\$5.3m of \$5.9m) including:

- \$2.4m in depreciation. Project delays have resulted in an underspend in depreciation against Budget 2019 funded levels. We were funded for \$5.7m of depreciation, but have only spent \$3.3m. The difference will be transferred to the Asset Reserve to maintain future capital funding at planned levels.
- \$0.8m of the final surplus was due to late arriving funding for Refrigeration and COVID-19 which wasn't able to be fully spent by year end and will be carried into 2020/21.
- \$2.1m in Major Hazards Facilities and Energy Safety, with a surplus of \$1.1m compared to a budgeted deficit of \$1m, due to lower spend and faster Safety Case completion.

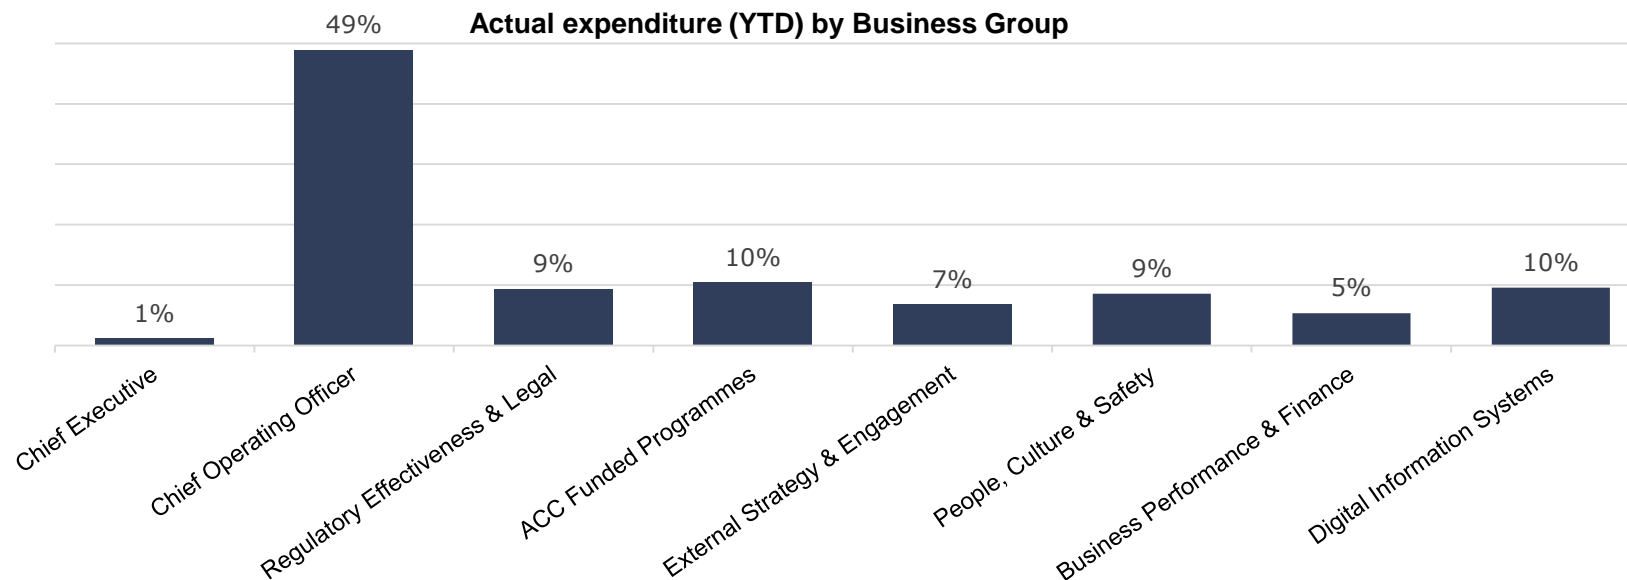

Working Safer Levy was \$0.5m underspent, with slower OPEX spend in ICT and Operations projects which has meant the incremental costs of Whakaari/White Island have been able to be absorbed

# Finance (2 of 4) – Actual expenditure and revenue year to date

YTD Actual Revenue Split

Actual expenditure (YTD) by Business Group

## Finance (3 of 4) – Changes in equity and balance sheet

### Changes in equity (Year to Date 30 June 2020)

\$000	Actual	Full Year SPE Budget	Variance
Equity at beginning of year	28,757	27,404	1,353
Capital contribution	200		200
Net surplus/(deficit)	1,861	(4,000)	5,861
Equity as at end of period	30,818	23,404	7,414

### Summary balance sheet (as at 30 June 2020)

\$000	Actual	Full Year SPE Budget	Variance
<b>Assets</b>			
Cash and bank	4,730	5,968	(1,238)
Investments	37,500	17,000	20,500
Debtors	1,796	1,000	796
Fixed assets	17,683	20,700	(3,017)
<b>Total</b>	<b>61,709</b>	<b>44,668</b>	<b>17,041</b>
<b>Liabilities</b>			
Creditors and payables	12,734	6,000	(6,734)
Employment liabilities	6,820	6,200	(620)
Income in Advance	11,337	9,065	(2,272)
<b>Total</b>	<b>30,891</b>	<b>21,265</b>	<b>(9,626)</b>
<b>Equity</b>			
Capital Reserves	26,134	25,934	200
Memorandum Accounts	4,545	1,562	2,983
Accumulated surplus/(deficit)	139	(4,092)	4,231
<b>Grand total</b>	<b>30,818</b>	<b>23,404</b>	<b>7,414</b>

The cash and investment position is higher than budget due to lower spend in both Operating and Capital. The higher cash is also reflected in:

- Lower fixed assets - less Capital spend due to delays in various projects (ICT down \$2.8m, vehicles down \$1m, facilities up \$0.9m)
- Higher income in advance - due to slower than expected spend on ACC funded projects, partly offset by the faster completion and release of Major Hazard Facilities Safety Case revenue.
- Higher equity - due to OPEX underspending plus \$0.2m capital injection
- Higher creditor and payable values - there is a high creditor and payables balance due to \$2.4m invoices from MBIE in relation to the purchase of existing laptop fleet and the transfer of leasehold and furniture & fittings assets and a further \$1.8m of accruals associated with charges yet to be invoiced by MBIE. There was also a pick up in spend toward the end of the year, with creditors including \$1.25m for marketing and promotion (including the COVID-19 campaign), \$2.0m ICT accruals associated with various capital projects and purchase of new laptops, and
- Lower employment liabilities - higher due to lower than planned leave being taken in the second half of the year due to COVID-19.

## Finance (4 of 4) – Summary of cash flow

Summary cash flow (Year to Date 30 June 2020)			
\$000	Actual	Full Year SPE Budget	Variance
<b>Operating Cash Flows</b>			
Receipts from Crown	107,890	106,282	1,608
Receipts from Other Revenue/Interest Received	17,461	15,926	1,535
Payments to Suppliers/Employees	(113,141)	(121,288)	8,147
<b>Net Operating Cash Flow</b>	<b>12,210</b>	<b>920</b>	<b>11,290</b>
<b>Investing Cash Flows</b>			
Net Investments	(6,500)	10,000	(16,500)
Net Asset Purchases	(5,838)	(11,593)	5,755
<b>Net Investing Cash Flows</b>	<b>(12,338)</b>	<b>(1,593)</b>	<b>(10,745)</b>
<b>Financing Cash Flows</b>			
Capital Contribution	200	0	200
<b>Net Financing Cash Flows</b>	<b>200</b>	<b>0</b>	<b>200</b>
<b>Cash Movement</b>			
Net (decrease)/increase in cash	72	(673)	745
Opening Cash	4,658	6,642	(1,984)
Closing Cash	4,730	5,968	(1,239)

The movements in cash reflect the lower spend in capital and operating as described above

# System targets

## Reduction in fatalities and serious harm

Indicator 1	Target 2020	Actual	Commentary
Fatal injury rate Per 100,000 FTEs 3-year average (Annual - October)  <i>NB: There is a considerable lag in available data, with Annual results being for the year prior.</i>	25% below baseline	36% lower than the baseline	The results for 2018 were released in October 2019. They show that the fatal injury rate remains below the target. However, the figures suggest that progress in reducing deaths has stalled. The result has been unchanged for two years.

Indicator 2	Target 2020	Actual	Commentary
Serious non-fatal injury rate Per 100,000 FTEs, annual rate (Annual - October)  <i>NB: There is a considerable lag in available data, with Annual results being for the year prior.</i>	25% below baseline	9% lower than baseline	The results for 2018 were released in October 2019. The result from October 2019 is 9% lower than baseline, but the rate has risen for the past two years.

Supplementary indicator	Target 2020	Actual	Commentary
Week away from work (WAFW) injuries Per 1,000 FTEs, annual rate (Annual - October)  <i>NB: There is a considerable lag in available data, with Annual results being for the year prior.</i>	25% below baseline	12% higher than the baseline	The results for 2018 were released in October 2019. The October 2019 result shows this indicator has remained the same or increased each year since 2011.  To drive change across all these measures, WorkSafe is increasing its focus on harm prevention, but we cannot deliver system results in isolation. A concerted effort from all workplaces is required.

Asbestos-related deaths		Catastrophic harm		Reduction in energy related fatalities	
Target	Commentary	Target	Commentary	Target	Commentary
50% ↓ ●	There is a three-year time lag in results for this indicator with forecasting indicating we are likely to reach the 2040 target (≤ 44).	0 ●	The incident at White Island/Whakaari in December 2019 is a catastrophic event because more than five people were killed in an event that related to work (workers and customers). As a result, this measure will not be achieved	↓ ●	Electricity fatality rate: <i>trending down</i> LPG fatality rate: <i>trending down</i> Natural gas fatality rate: <i>trending down</i>

# Statement of Intent - Impact (1 of 2)

## People value health and safety: Our work supports people to value health and safety as part of good business

		Target 21/22	Actual	Commentary
