

The people who do the work
are the people who best
understand the work.

Learning?

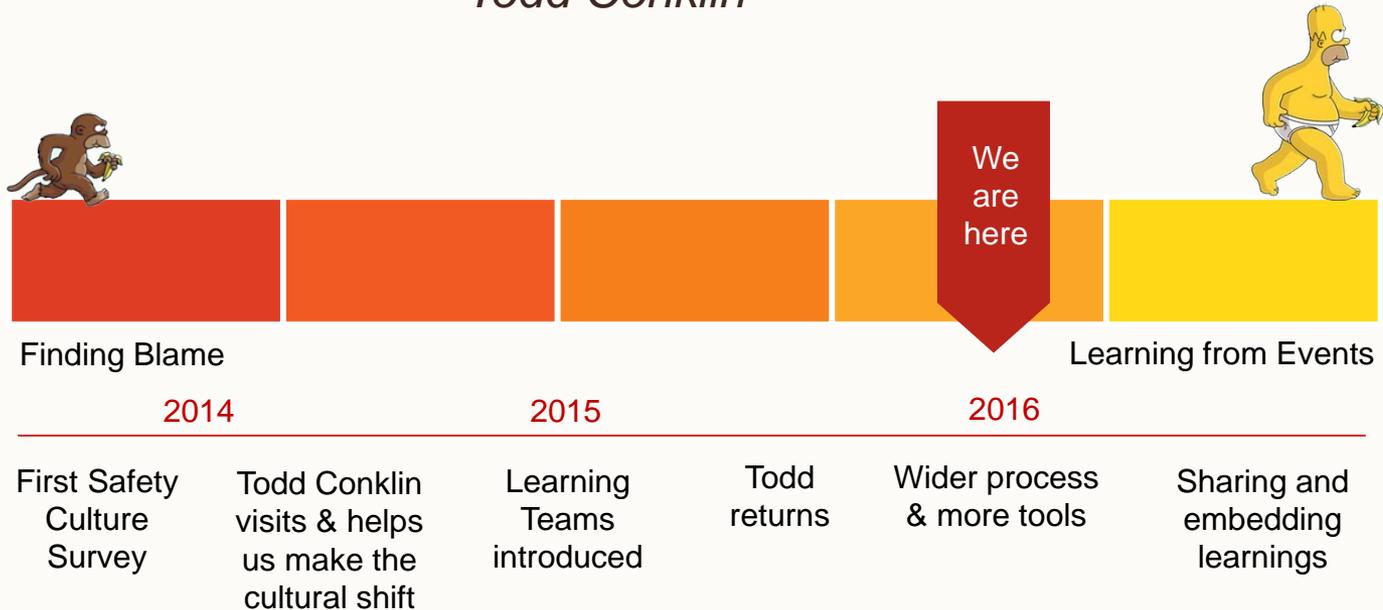

Learning from the good,
and not so good stuff,
that happens every day.

It started with a mind shift

“You can blame and punish safety problems away, or you can learn and improve.”

Todd Conklin

We've now changed our approach

What will make the real difference is YOU!

“Leaders create culture, and
culture drives behaviour.”

Todd Conklin

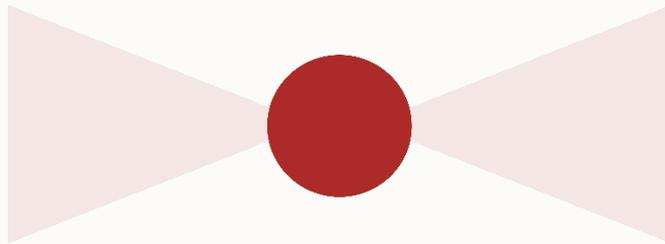

A word, or two, about making fair calls

- Mistakes happen.
- We need to understand what's behind them.
- But we need to treat people fairly and consistently as we go.

Performance Shaping Factors

STORY

Sharing – who doesn't like a good story?

If we don't share, we miss an opportunity to learn and improve.
