<input type="checkbox"/> Substances that react violently or liberate toxic gas on contact with water	

Public warning in case of major incident

General information about how the public will be warned in the event of a major incident at the facility:

Neighbouring properties within a 200 metre radius will be notified by phone using contact information in the Ixom Mount Maunganui Emergency Response Plan. The notification will be carried out by Ixom's Emergency Response Service (ERS), under the direction of the Facility Emergency Controller (FEC).

Notification of the public and businesses within the wider affected area to be determined and carried out by the Emergency Services, in consultation with the Facility Emergency Controller.

Public actions in case of major incident

General information about how the public should act and any precautionary steps that people should take if a major incident occurs at the facility:

On notification of a major incident at the Ixom Mount Maunganui site, or on detecting a strong chemical odour or visible fume, the public should shelter in place by going indoors and closing all doors and windows until the emergency is declared over. If evacuation is required, this will be coordinated by the Emergency Services.
